Summary

Dedicated **Data Analyst** with expertise in leveraging **Business Intelligence (BI)** tools to transform complex datasets into **actionable insights that support data-driven decision making**. Proficient in building robust **ETL pipelines** and interactive dashboards using **SQL, Python, Excel, and Power BI**. Proven track record of performing deep-dive **Root Cause Analysis** to identify operational inefficiencies and developing strategic **action plans** that drive measurable business growth. Adept at bridging the gap between technical data architecture and executive-level strategy to optimize organizational performance.

Experience

Data Analyst

Mar 2026 – Present

Upwork, Remote

- Manage end-to-end data projects for global clients, leveraging **SQL** and **Python** to extract and manipulate complex datasets.
- Develop interactive **Power BI** dashboards to visualize KPIs, providing clients with **actionable insights** for business growth.
- Perform **Root Cause Analysis** on client data to identify operational bottlenecks and recommend data-driven **action plans**.

Data Analyst Internship

July 2023 – Oct 2023

Na3ml, Onsite

- Applied **Statistics** and exploratory data analysis (EDA) to interpret trends and patterns within organizational datasets.
- Utilized **Excel** and **SQL** for data cleaning and transformation, ensuring high data integrity for reporting.
- Created automated reports in **Power BI** that streamlined the decision-making process for the management team.

Data Scientist Internship

Jun 2022 – Feb 2023

NilePreneurs, Cairo, Egypt

- Completed a comprehensive track in **Data Science** and **AI**, focusing on predictive modeling and machine learning algorithms.
- Cleaned and processed large-scale datasets using **Pandas** and **NumPy** to prepare for deep learning model training.
- Collaborated on cross-functional projects to translate technical model outputs into business-friendly recommendations.

Projects

Business Risk & Loan Portfolio Analysis

Power BI, Statistics

[Dashboard Link](#)

- Engineered a risk assessment dashboard to monitor \$755M in total sales and loan distributions across multiple branches.
- **Achievement:** Identified that 51% of the portfolio was in "High Risk" categories, allowing for a strategic revision of credit criteria that improved collection forecasts by 15%.

Coffee Sales Performance Analysis

Excel, Pivot Tables, Data Modeling

[Dashboard Link](#)

- Developed a dynamic sales tracker to analyze roast types and package sizes across USA, Ireland, and UK markets.
- **Achievement:** Discovered that Arabica beans drove 40% of revenue, leading to a stock optimization plan that reduced inventory holding costs by 10%.

Super Market Operational Insights

Power BI, ETL, DAX

[Dashboard Link](#)

- Built a multi-year sales dashboard to track 54M SAR in revenue and 17M SAR in profit across Electronics and Home Appliances.
- **Achievement:** Pinpointed regional trends enabling a 32% profit margin benchmark through targeted marketing spend in Riyadh and Jeddah.

Technical Skills

- **Data Analytics:** Power BI, DAX, Power Query, Data Visualization, Data Modeling, KPI Reporting
- **Power Platform:** PowerApps, Power Automate, Workflow Automation
- **Programming:** Python, SQL
- **Soft Skills:** Problem Solving, Agile Collaboration, Communication, Analytical Thinking

Education

Bachelor of Science in Computer Science

Sep 2019 – Jul 2023

Mansoura University, Mansoura, Egypt

- **Relevant Coursework:** Database Management (SQL), Data Structures, Algorithms, Statistical Analysis, and Software Engineering.
- Developed a strong foundation in computational logic and analytical problem-solving, applying expertise to complex data modeling and ETL processes.

Languages

- **Arabic:** Native speaker.
- **English:** Professional Working Proficiency.
